Inquisitive by nature and a developer by passion. A tech enthusiast who loves to code and solve real life problems. With a huge interest in programming I enjoy applying my skills to my personal projects and real life problems and also a dedicated computer science student with a strong foundation in math, logic, and coding.

PERSONAL PROJECTS

ShiftCtrl.tech (05/2019 – 06/2019) 📄

- A website which provides all the available shortcuts which we use in our daily life
- Just a front-end application done with basic languages

IOT Application (08/2019 – 10/2019)

- Designed an IOT application using flutter which remotely controls the fans, lights and gives the various information about the temperature, humidity etc

RealEstate website (05/2019 – 07/2019) 📄

- This is my personal project. Made with Django and Bootstrap and database used is postgresql.
- This website is basically about buying and selling of properties we can list our properties for sale.
- Separate Dashboard is designed for the user with a good looking UI.
