Inquisitive by nature and a developer by passion. A tech enthusiast who loves to code and solve real life problems. With a huge interest in programming I enjoy applying my skills to my personal projects and real life problems and also a dedicated computer science student with a strong foundation in math, logic, and coding.

WORK EXPERIENCE

Web Developer Delineate Innovations Private Limited

01/2019 – 03/2019

Mumbai

Achievements/Tasks

- Selected as an intern in web development domain
- My work was to develop a web page for a loan giving company
- I was assigned as a front-end developer to the project so my main work in the project was to develop a responsive website with a good user friendly interface.
- Some additional work include creating widgets related to loan like emi calculator which dynamically display graphs, pie charts and other information related to loans which are designed with the svg animation and jQuery animations.

EDUCATION

B.Tech in Computer Science and Engineering Vellore Institute of Technology, Vellore

07/2017 – Present

PERSONAL PROJECTS

E commerce website (08/2018 – 12/2018)

- Just my personal project. Designed to improve my skills.
- Made with PHP, SQL, HTML and CSS

RealEstate website (05/2019 – 07/2019) ↗

- This is also my personal project. Made with Django and Bootstrap and database used is postgresql
- This website is basically about buying and selling of properties we can list our properties for sale.
- Separate Dashboard is designed for the user with a good looking UI.

Personal Blog (03/2018 – 04/2019) ↗

- Designed my own blog with my own domain and hosting.
- Blog covers about various tech and gadgets information.

ACHIEVEMENTS

100k+ views for my blog ↗

LOR from CEO desk

I achieved LOR (letter of recommendation) for contributing the best among other members in my 2 months of internship.
